ABOUT THE CONFERENCE

The new normal brings a rapid transformation in the Indian Business scenario, and the environmental factors affecting the business in an unpredictable condition. The unpredicted situation and the challenges affecting global business have a deep impact on economic, social, political, environmental, and technological aspects of human life. The emerging concept of new normal is a paradigm shift that has to be addressed with redefined strategies and business models. Hence this International Conference shall serve as a platform for Students, Researchers, Academicians, and industrialists to share knowledge and ideas to rebuild a better world and offer insight into the recent trends in the field of Management, Commerce, Economics & Social Science.
